WORK EXPERIENCE

Nota AI, Seoul, South Korea

Oct. 2026 – Present

Position: Quantization Research Engineer

EDUCATION

Integrated **Ph.D.** program in Department of ECE

Mar. 2020 – Aug. 2026

Seoul National University (SNU), Seoul, South Korea

Advisor: Kyoung Mu Lee

B.S. in Department of ECE

Mar. 2016 – Feb. 2020

Seoul National University (SNU), Seoul, South Korea

RESEARCH INTEREST

My current research focuses on parameter-efficient fine-tuning (PEFT), especially on enhancing low-rank adaptation (LoRA) for fine-tuning large models on downstream tasks. My research interests also include network pruning and quantization, continual learning, and task-driven image super-resolution.

TEACHING ASSISTANT

L0444.000500: Computational Core: Thinking with Computer Seoul National University (SNU), Seoul, South Korea	Sep. 2022 – Dec. 2022
---	-----------------------

M2608.001900: Introduction to Computer Vision Seoul National University (SNU), Seoul, South Korea	Mar. 2022 – June. 2022
--	------------------------
